

TITAN-9 VEST – LEVEL IIIA

Technical Datasheet

The ARMETEK **TITAN-9** Multi-Threat Level IIIA is high-performance composite armor engineered to deliver exceptional protection while minimizing weight and thickness. It offers outstanding resistance to blunt force impacts and is designed with strong multi-hit capability, ensuring reliable performance under repeated threats.

GENERAL INFORMATION

Model Number	ARM-TITAN-9
Protection Level	NIJ Level IIIA (0101.06)
Handgun Bullets	9mm FMJ, .44 Magnum SJHP
Fragmentation resistance	Yes (STANAG 29200)
Stab resistance	Yes (KR3)

BALLISTIC PANEL FEATURES

Coverage	Full front rear and side coverage
Ballistic material	UHMWPE, Aramid
Carrier fabric	Durable, breathable textile
Approximate weight	2.2 kg
Thickness	8.5 mm
Sizes available	XS/ S / M / L / XL / 2XL / 3XL (custom sizing available)

Usage & Maintenance

Store in dry conditions
Avoid prolonged exposure to direct sunlight
Do not fold ballistic panels
Regular inspection recommended
